PROFESSIONAL PROFILE

Computer Engineering student interested in learning new technologies and exploring different fields in tech. I enjoy building projects, experimenting with tools, and improving my problem solving skills through practical work. Always open to learning and gaining new experiences.

PROJECT EXPERIENCE

Pet Adoption Platform – Group Project | React, Django REST Framework

- Developed a full-stack pet adoption platform with user authentication and filtering.
- Used DRF for backend APIs and React for dynamic UI.

Pharmacy Management System – C++ Console App

- Built billing and inventory management system using object-oriented programming principles.
- Utilized file handling for data storage and access.

EDUCATION

B.E. in Computer Engineering

2021–Present

Acme Engineering College, Basundhara, Kathmandu, Nepal.

Higher Secondary (+2)

2018–2020

Everest Innovative College, Solteemode, Kathmandu, Nepal.

Secondary Education Examination (SEE)

Learning Realm International School, Kathmandu, Nepal

2018

TRAININGS AND SKILLS
